

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A fuel supply device for supplying fuel to a mobile electronic device, comprising:

means for receiving data from a mobile electronic device;

a fuel reservoir;

a fuel interface for connection with the mobile electronic device; and

a transfer mechanism for transferring fuel from the reservoir to the interface and into the connected mobile electronic device in dependence upon the data received from the mobile electronic device.

2. (Original) A fuel supply device according to claim 1, wherein the fuel supply device automatically transfers fuel to the mobile electronic device when the fuel interface connects with a corresponding fuel interface of the mobile electronic device.

3. (Original) A fuel supply device as claimed in claim 1, wherein the fuel reservoir is user-refillable.

4. (Original) A fuel supply device as claimed in claim 1, wherein the fuel reservoir is a user replaceable container.

5. (Original) A fuel supply device as claimed in claim 1, wherein the fuel is a liquid containing hydrogen.

6. (Original) A fuel supply device as claimed in claim 1, wherein the fuel interface is arranged for data transfer between the fuel supply device and the mobile electronic device.

7. (Original) A fuel supply device as claimed in claim 1, arranged for use with multiple different mobile electronic devices, wherein an identifier is transferred between a mobile electronic device to which fuel is supplied and the fuel supply device.

8. (Original) A fuel supply device as claimed in claim 7, wherein the identifier identifies the mobile electronic device to which fuel is supplied.

9. (Original) A fuel supply device as claimed in claim 7, wherein the identifier identifies the type of fuel for supply to the mobile electronic device.

10. (Original) A fuel supply device as claimed in claim 7, further comprising metering means for controlling the amount of fuel dispensed.

11. (Original) A fuel supply device as claimed in claim 1, embodied in a supporting stand for the mobile electronic device. wherein the supporting stand comprises a cradle for receiving the mobile electronic device.

12. (Original) A fuel supply device as claimed in claim 11 further comprising a detector for detecting when the cradle receives a mobile electronic device; and
a controller, responsive to the detector, for enabling transfer of fuel from the fuel reservoir to the mobile electronic device.

13.-21. (Canceled)
